APPLICATION:

Brush, Roller, Air Spray or Airless Spray

Airless Tips: .013" - .017"

Dry times at 21°C / 70°F and 60 minutes 40%-60% R.H.:

To Touch: 2 hours

To Handle: 6 hours

To Overcoat:

PRODUCT HAZARDS AND SAFETY INFORMATION:

See Material Safety Data Sheet for complete Health and Safety information.

ADDITIONAL DATA:

For optimum adhesion and application performance, ensure that the temperature and relative humidity are between 15-25°C and 40-60% respectively, at the time of application and for four hours afterward. If mildew is present, the surface should be washed with a chlorine bleach solution (20% household bleach and 1% liquid detergent in warm water) and thoroughly rinsed prior to painting. A curing period of 7-10 days is required before the optimum properties are achieved.

*Can be tinted with up to 4 ounces of colorant, however this will increase the VOC levels and may add some odour to the paint.
