# Section 2. Hazards identification

| OSHA/HCS status                            | : This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).  |
|--|--|
| Classification of the substance or mixture | <ul> <li>FLAMMABLE LIQUIDS - Category 3<br/>SKIN CORROSION/IRRITATION - Category 2<br/>SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A<br/>CARCINOGENICITY - Category 1A<br/>TOXIC TO REPRODUCTION - Category 1B<br/>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract<br/>irritation) - Category 3<br/>SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 1<br/>ASPIRATION HAZARD - Category 1</li> </ul> |
|  | Percentage of the mixture consisting of ingredient(s) of unknown acute dermal toxicity: 5%   |
| GHS label elements                         |  |
| Hazard pictograms                          |  |
| Signal word                                | : Danger   |

| Date of issue/Date | of revision                     | : 4/18/2024     | Date of previous issue | : 1/22/2024 | Version | : 28      | 1/23 |
|--------------------|---------------------------------|-----------------|------------------------|-------------|---------|-----------|------|
| B50WZ1             | KEM KROMIK® Univer<br>Off White | sal Metal Prime | r (VOC Comp.)          |             | SHW-85- | NA-GHS-US |      |

## Section 2. Hazards identification

| Hazard statements                   | <ul> <li>Flammable liquid and vapor.<br/>May be fatal if swallowed and enters airways.<br/>Causes skin irritation.<br/>Causes serious eye irritation.<br/>May cause respiratory irritation.<br/>May cause cancer.<br/>May damage fertility or the unborn child.<br/>Causes damage to organs through prolonged or repeated exposure. (lungs)</li> </ul>  |
|-------------------------------------|---|
| Precautionary statements            |   |
| Prevention                          | : Obtain special instructions before use. Do not handle until all safety precautions have<br>been read and understood. Wear protective gloves, protective clothing and eye or face<br>protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition<br>sources. No smoking. Use explosion-proof electrical, ventilating or lighting equipment.<br>Use non-sparking tools. Take action to prevent static discharges. Use only outdoors or<br>in a well-ventilated area. Do not breathe vapor. Do not eat, drink or smoke when using<br>this product. Wash thoroughly after handling.   |
| Response                            | : IF exposed or concerned: Get medical advice or attention. IF INHALED: Remove<br>person to fresh air and keep comfortable for breathing. Call a POISON CENTER or<br>doctor if you feel unwell. IF SWALLOWED: Immediately call a POISON CENTER or<br>doctor. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all<br>contaminated clothing. Rinse skin with water. IF ON SKIN: Wash with plenty of water.<br>If skin irritation occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously<br>with water for several minutes. Remove contact lenses, if present and easy to do.<br>Continue rinsing. If eye irritation persists: Get medical advice or attention.  |
| Storage                             | : Store locked up. Store in a well-ventilated place. Keep container tightly closed. Keep cool.  |
| Disposal                            | <ul> <li>Dispose of contents and container in accordance with all local, regional, national and<br/>international regulations.</li> </ul>   |
| Supplemental label<br>elements      | DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Contains solvents which<br>can cause permanent brain and nervous system damage. Intentional misuse by<br>deliberately concentrating and inhaling the contents can be harmful or fatal. WARNING:<br>This product contains chemicals known to the State of California to cause cancer and<br>birth defects or other reproductive harm. FOR INDUSTRIAL USE ONLY. Adequate<br>ventilation required when sanding or abrading the dried film. If Adequate ventilation<br>cannot be provided wear an approved particulate respirator (NIOSH approved). Follow<br>respirator manufacturer's directions for respirator use. DELAYED EFFECTS FROM<br>LONG TERM OVEREXPOSURE. Abrading or sanding of the dry film may release<br>Crystalline Silica which has been shown to cause lung damage and cancer under long<br>term exposure. |
|                                     | Please refer to the SDS for additional information. Keep out of reach of children. Do not transfer contents to other containers for storage.  |
| Hazards not otherwise<br>classified | : DANGER: Rags, steel wool, other waste soaked with this product, and sanding residue<br>may spontaneously catch fire if improperly discarded. Immediately place rags, steel<br>wool, other waste soaked with this product, and sanding residue in a sealed, water-filled,<br>metal container. Dispose of in accordance with local fire regulations.  |
|                                     |   |

# Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture        |
|-------------------|------------------|
| Other means of    | : Not available. |
| identification    |                  |

### **CAS number/other identifiers**

## Section 3. Composition/information on ingredients

| Ingredient name                       | % by weight | CAS number |
|---------------------------------------|-------------|------------|
| Calcium Carbonate                     | ≥25 - ≤50   | 1317-65-3  |
| Xylene, mixed isomers                 | ≤10         | 1330-20-7  |
| Titanium Dioxide                      | ≥10 - ≤25   | 13463-67-7 |
| Talc                                  | ≤10-≤23     | 14807-96-6 |
|                                       |             |            |
| Light Aromatic Hydrocarbons           | ≤3.9        | 64742-95-6 |
| Toluene                               | ≤3.2        | 108-88-3   |
| trimethylbenzene                      | ≤3          | 25551-13-7 |
| Ethylbenzene                          | ≤2          | 100-41-4   |
| 1,3,5-Trimethylbenzene                | <1          | 108-67-8   |
| 1,2,4-Trimethylbenzene                | <1          | 95-63-6    |
| Cumene                                | ≤0.3        | 98-82-8    |
| 1,2,3-Trimethylbenzene                | ≤0.3        | 526-73-8   |
| Crystalline Silica, respirable powder | ≤0.3        | 14808-60-7 |
| Light Aliphatic Hydrocarbon           | ≤0.3        | 64742-47-8 |
| Methyl Isobutyl Ketone                | ≤0.3        | 108-10-1   |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

### Description of necessary first aid measures

| Eye contact  | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.   |
|--------------|---|
| Inhalation   | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.                 |
| Skin contact | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.   |
| Ingestion    | : Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Aspiration hazard if swallowed. Can enter lungs and cause damage. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |

#### Most important symptoms/effects, acute and delayed

| Potential acute health e       | ffects   |                   |
|--------------------------------|--|-------------------|
| Eye contact                    | : Causes serious eye irritation.               |                   |
| Inhalation                     | : May cause respiratory irritation.            |                   |
| Skin contact                   | : Causes skin irritation.                      |                   |
| Date of issue/Date of revision | : 4/18/2024 Date of previous issue : 1/22/2024 | Version : 28 3/23 |
| B50WZ1 KEM KROM<br>Off White   | IK® Universal Metal Primer (VOC Comp.)         | SHW-85-NA-GHS-US  |

## Section 4. First aid measures

| Ingestion                  | : May be fatal if swallowed and enters airways.   |
|----------------------------|---|
| Over-exposure signs/symp   | toms  |
| Eye contact                | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
| Inhalation                 | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |
| Skin contact               | : Adverse symptoms may include the following:<br>irritation<br>redness<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations                    |
| Ingestion                  | : Adverse symptoms may include the following:<br>nausea or vomiting<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations                       |
|                            | lical attention and special treatment needed, if necessary  |
| Notes to physician         | : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.   |
| Specific treatments        | : No specific treatment.  |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If   |

Ction of first-aiders
 No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

| Extinguishing media                        |  |
|--|--|
| Suitable extinguishing media               | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |
| Unsuitable extinguishing media             | : Do not use water jet.  |
| Specific hazards arising from the chemical | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. The vapor/gas is heavier than air and will spread along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. |
| Hazardous thermal decomposition products   | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>phosphorus oxides<br>metal oxide/oxides  |
| Date of issue/Date of revision             | • 4/18/2024 Date of previous issue • 1/22/2024 Version • 28 4/22   |

| Date of issue/Date | of revision                      | : 4/18/2024     | Date of previous issue | : 1/22/2024 | Version  | :28       | 4/23 |
|--------------------|----------------------------------|-----------------|------------------------|-------------|----------|-----------|------|
| B50WZ1             | KEM KROMIK® Universion Off White | sal Metal Prime | r (VOC Comp.)          |             | SHW-85-I | NA-GHS-US |      |

## Section 5. Fire-fighting measures

| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
|--|--|
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.  |
| Remark   | : Flammable liquid.  |

## Section 6. Accidental release measures

| Personal precautions, protec   | tive equipment and emergency procedures   |
|--------------------------------|---|
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide<br>adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put<br>on appropriate personal protective equipment. |
| For emergency responders       | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for co   | ntainment and cleaning up   |
| Small spill                    | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
| Large spill                    | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers,   |

water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Protective measures
 Put on appropriate personal protective equipment (see Section 8). Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not swallow. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.

| Date of issue/Date | of revision                     | : 4/18/2024      | Date of previous issue | : 1/22/2024 | Version | : 28      | 5/23 |
|--------------------|---------------------------------|------------------|------------------------|-------------|---------|-----------|------|
| B50WZ1             | KEM KROMIK® Univer<br>Off White | rsal Metal Prime | r (VOC Comp.)          |             | SHW-85- | NA-GHS-US |      |

# Section 7. Handling and storage

| Advice on general<br>occupational hygiene                          | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
|--|--|
| Conditions for safe storage,<br>including any<br>incompatibilities | : Store in accordance with local regulations. Store in a segregated and approved area.<br>Store in original container protected from direct sunlight in a dry, cool and well-ventilated<br>area, away from incompatible materials (see Section 10) and food and drink. Store<br>locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep<br>container tightly closed and sealed until ready for use. Containers that have been<br>opened must be carefully resealed and kept upright to prevent leakage. Do not store in<br>unlabeled containers. Use appropriate containment to avoid environmental<br>contamination. See Section 10 for incompatible materials before handling or use. |

# Section 8. Exposure controls/personal protection

## **Control parameters**

Occupational exposure limits (OSHA United States)

| 1317-65-3              | OSHA PEL (United States, 5/2018).<br>TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Respirable  |

| Body protection        | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves. |
|------------------------|---|
| Other skin protection  | : Appropriate footwear and any additional skin protection measures should be selected<br>based on the task being performed and the risks involved and should be approved by a<br>specialist before handling this product.   |
| Respiratory protection | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.  |

# Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

### Mobility in soil

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects

: No known significant effects or critical hazards.

## Section 13. Disposal considerations

Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 16. Other information

Hazardous Material Information System (U.S.A.)

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

Procedure used to derive the classification

| Classification   | Justification   |  |  |
|--|---|--|--|
| FLAMMABLE LIQUIDS - Category 3<br>SKIN CORROSION/IRRITATION - Category 2<br>SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A<br>CARCINOGENICITY - Category 1A<br>TOXIC TO REPRODUCTION - Category 1B<br>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract<br>irritation) - Category 3<br>SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 1<br>ASPIRATION HAZARD - Category 1 | On basis of test data<br>Calculation method<br>Calculation method<br>Calculation method<br>Calculation method<br>Calculation method<br>Calculation method |  |  |

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.
