### PRODUCT HAZARDS SAFETY INFORMATION:

See Material Safety Data Sheet for complete Health and Safety information.

### ADDITIONAL DATA:

Apply coating evenly while maintaining a "wet edge" to prevent lapping. When thoroughly dry X-Terminator2 may be sanded lightly with 180 or 220 grit sanding paper to achieve the most appropriate finish on smooth surfaces. Some stains may require two coats to cover.

Due to the exceptional adhesion level of this product it is suitable for use on many substrates that are typically considered difficult to paint like melamine, tile, galvanized metal and aged alkyd, however a test patch is recommended to ensure that the adhesion is adequate.

Complies with the requirements of MPI #17, 39, 134 and #137.
