# **SAFETY DATA SHEET**

GC28850

## Section 1. Identification

| Product name                                 | : Geocel® PRO FLEX® RV Flexible Sealant<br>Clear   |
|--|--|
| Product code                                 | : GC28850  |
| Other means of<br>identification             | : Not available.   |
| Product type                                 | : Liquid.  |
| Relevant identified uses of t                | ne substance or mixture and uses advised against   |
| Paint or paint related material.             |  |
|  |  |
| Manufacturer                                 | : Geocel Products Group<br>A Business Unit of the Sherwin-Williams Company<br>180 Brunel Road<br>Mississauga, ON L4Z 1T5 |
| Emergency telephone<br>number of the company | : (800) 424-9300   |
| Product Information<br>Telephone Number      | : (800) 348-7615   |
| Transportation Emergency                     | : (800) 424-9300   |

## Section 2. Hazards identification

**Telephone Number** 

| Classification of the substance or mixture | <ul> <li>SKIN CORROSION/IRRITATION - Category 2<br/>SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A<br/>CARCINOGENICITY - Category 1B<br/>TOXIC TO REPRODUCTION - Category 2<br/>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) -<br/>Category 3<br/>SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2</li> </ul> |
|--|---|
|  | Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: 9.6% (oral), 52.3% (dermal), 9.6% (inhalation)   |
| GHS label elements                         |   |
| Hazard pictograms                          |   |
| Signal word                                | : Danger  |
| Hazard statements                          | <ul> <li>Causes skin irritation.</li> <li>Causes serious eye irritation.</li> <li>May cause drowsiness or dizziness.</li> <li>May cause cancer.</li> <li>Suspected of damaging fertility or the unborn child.</li> <li>May cause damage to organs through prolonged or repeated exposure.</li> </ul>  |
| Precautionary statements                   |   |

| Date of issue/Date | e of revision             | : 2/3/2024      | Date of previous issue | : 1/29/2024 | Version : 5.01   | 1/17 |
|--------------------|---------------------------|-----------------|------------------------|-------------|------------------|------|
| GC28850            | Geocel® PRO FLEX<br>Clear | ® RV Flexible S | ealant                 |             | SHW-85-NA-GHS-CA |      |

## Section 2. Hazards identification

| General                             | : Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.   |
|-------------------------------------|---|
| Prevention                          | : Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Use only outdoors or in a well-ventilated area. Do not breathe vapor. Wash thoroughly after handling.   |
| Response                            | : IF exposed or concerned: Get medical advice or attention. IF INHALED: Remove<br>person to fresh air and keep comfortable for breathing. Call a POISON CENTER or<br>doctor if you feel unwell. Take off contaminated clothing and wash it before reuse. IF<br>ON SKIN: Wash with plenty of water. If skin irritation occurs: Get medical advice or<br>attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact<br>lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical<br>advice or attention. |
| Storage                             | : Store locked up. Store in a well-ventilated place. Keep container tightly closed.   |
| Disposal                            | : Dispose of contents and container in accordance with all local, regional, national and international regulations.   |
| Supplemental label<br>elements      | DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Contains solvents which<br>can cause permanent brain and nervous system damage. Intentional misuse by<br>deliberately concentrating and inhaling the contents can be harmful or fatal.<br>Please refer to the SDS for additional information. Keep out of reach of children. Do not  |
|                                     | transfer contents to other containers for storage.  |
| Hazards not otherwise<br>classified | : None known.   |

### Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture        |
|-------------------|------------------|
| Other means of    | : Not available. |
| identification    |                  |

#### CAS number/other identifiers

| Ingredient name               | % by weight | CAS number  |
|-------------------------------|-------------|-------------|
| Tetrachloroethylene           | 42.7        | 127-18-4    |
| Hydrocarbon Polymer           | 16.11       | -           |
| Styrene-Hydrocarbon Copolymer | 9.63        | 9011-11-4   |
| Fumed Amorphous Silica        | 3.18        | 112945-52-5 |
| Light Aromatic Hydrocarbons   | 1.73        | 64742-95-6  |
| trimethylbenzene              | 0.9         | 25551-13-7  |
| 1,3,5-Trimethylbenzene        | 0.38        | 108-67-8    |
| 1,2,4-Trimethylbenzene        | 0.38        | 95-63-6     |
| Light Stabilizer              | 0.18        | 52829-07-9  |
| Xylene, mixed isomers         | 0.11        | 1330-20-7   |
| 1,2,3-Trimethylbenzene        | 0.11        | 526-73-8    |
| Cumene                        | 0.11        | 98-82-8     |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

| Date of issue/Date | of revision                | : 2/3/2024      | Date of previous issue | : 1/29/2024 |
|--------------------|----------------------------|-----------------|------------------------|-------------|
| GC28850            | Geocel® PRO FLEX®<br>Clear | RV Flexible Sea | alant                  |             |

## Section 4. First aid measures

| Description of necessary first aid measures |   |  |
|---|---|--|
| Eye contact                                 | <ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower<br/>eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10<br/>minutes. Get medical attention.</li> </ul>   |  |
| Inhalation                                  | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. |  |
| Skin contact                                | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.   |  |
| Ingestion                                   | : Wash out mouth with water. Remove dentures if any. If material has been swallowed<br>and the exposed person is conscious, give small quantities of water to drink. Stop if the<br>exposed person feels sick as vomiting may be dangerous. Do not induce vomiting<br>unless directed to do so by medical personnel. If vomiting occurs, the head should be<br>kept low so that vomit does not enter the lungs. Get medical attention. If necessary,<br>call a poison center or physician. Never give anything by mouth to an unconscious<br>person. If unconscious, place in recovery position and get medical attention<br>immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt<br>or waistband.   |  |

### Most important symptoms/effects, acute and delayed

| Potential acute health effect | S  |   |
|-------------------------------|----|---|
| Eye contact                   | :  | Causes serious eye irritation.  |
| Inhalation                    | 1  | Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness.   |
| Skin contact                  | :  | Causes skin irritation.   |
| Ingestion                     | :  | Can cause central nervous system (CNS) depression.  |
| Over-exposure signs/sympt     | on | <u>15</u>   |
| Eye contact                   | :  | Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
| Inhalation                    | :  | Adverse symptoms may include the following:<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |

: 1/29/2024

### Section 4. First aid measures

| Skin contact               | : Adverse symptoms may include the following:<br>irritation<br>redness<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations  |
|----------------------------|---|
| Ingestion                  | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |
| Indication of immediate me | dical attention and special treatment needed, if necessary  |
| Notes to physician         | <ul> <li>In case of inhalation of decomposition products in a fire, symptoms may be delayed.</li> <li>The exposed person may need to be kept under medical surveillance for 48 hours.</li> </ul>  |
| Specific treatments        | : No specific treatment.  |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

### Section 5. Fire-fighting measures

| : Use an extinguishing agent suitable for the surrounding fire.   |
|---|
| : None known.   |
| : In a fire or if heated, a pressure increase will occur and the container may burst. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
| : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>halogenated compounds<br>carbonyl halides<br>metal oxide/oxides   |
| : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.                           |
| : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |
|   |

## Section 6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures |   |  |
|---|---|--|
| For non-emergency<br>personnel                                      | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment.  |  |
| For emergency responders  | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |  |
| Environmental precautions   | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to<br>the environment if released in large quantities.   |  |
| Methods and materials for co  | ntainment and cleaning up   |  |
| Small spill   | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |  |
| Large spill   | : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |  |

## Section 7. Handling and storage

| <b>Precaut</b> | ions f | for | safe I | handl | ing |
|----------------|--------|-----|--------|-------|-----|
|                |        |     |        |       |     |

| Protective measures  | : Put on appropriate personal protective equipment (see Section 8). Avoid exposure -<br>obtain special instructions before use. Avoid exposure during pregnancy. Do not<br>handle until all safety precautions have been read and understood. Do not get in eyes<br>or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Avoid release to<br>the environment. Use only with adequate ventilation. Wear appropriate respirator when<br>ventilation is inadequate. Keep in the original container or an approved alternative<br>made from a compatible material, kept tightly closed when not in use. Empty containers<br>retain product residue and can be hazardous. Do not reuse container. |
|--|--|
| Advice on general<br>occupational hygiene                          | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.  |

#### **Occupational exposure limits (Mexico)**

| Ingredient name     | CAS #    | Exposure limits  |
|---------------------|----------|--|
| Tetrachloroethylene | 127-18-4 | NOM-010-STPS-2014 (Mexico, 4/2016).<br>TWA: 25 ppm 8 hours.<br>STEL: 100 ppm 15 minutes. |
| Cumene              | 98-82-8  | NOM-010-STPS-2014 (Mexico, 4/2016).<br>TWA: 50 ppm 8 hours.                              |

#### **Biological exposure indices (United States)**

| Ingredient name       | Exposure indices  |  |  |
|-----------------------|---|--|--|
| Tetrachloroethylene   | ACGIH BEI (United States, 1/2023)<br>BEI: 3 ppm, tetrachloroethylene [in end-<br>exhaled air]. Sampling time: prior to shift.<br>BEI: 0.5 mg/l, tetrachloroethylene [in blood].<br>Sampling time: prior to shift. |  |  |
| Xylene, mixed isomers | ACGIH BEI (United States, 1/2023) [xylenes<br>(technical or commercial grade)]<br>BEI: 1.5 g/g creatinine, methylhippuric acids<br>[in urine]. Sampling time: end of shift.                                       |  |  |

#### Biological exposure indices (Canada)

No exposure indices known.

### **Biological exposure indices (Mexico)**

| Ingredient name     | Exposure indices   |
|---------------------|--|
| Tetrachloroethylene | Official Mexican STANDARD NOM-<br>047-SSA1-2011, Environmental Health-<br>Biological exposure indices for personnel<br>occupationally exposed to chemical<br>substances. (Mexico, 6/2012)<br>BEI: 0.5 mg/L, tetrachlorethylene [in blood].<br>Sampling time: before work shift.<br>BEI: 3 ppm, tetrachlorethylene [in final<br>exhaled breath]. Sampling time: before work<br>shift. |

## Appropriate engineering controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

## Environmental exposure controls

2

| Date of issue/Date | of revision                | : 2/3/2024     | Date of previous issue | : 1/29/2024 | Version : 5.01   | 8/17 |
|--------------------|----------------------------|----------------|------------------------|-------------|------------------|------|
| GC28850            | Geocel® PRO FLEX®<br>Clear | RV Flexible Se | alant                  |             | SHW-85-NA-GHS-CA |      |

|                               | • •  |
|-------------------------------|--|
|                               | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.  |
| Individual protection measure | <u>S</u>   |
| Hygiene measures              | : Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.  |
| Eye/face protection           | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.   |
| Skin protection               |  |
| Hand protection               | : Chemical-resistant, impervious gloves complying with an approved standard should be<br>worn at all times when handling chemical products if a risk assessment indicates this is<br>necessary. Considering the parameters specified by the glove manufacturer, check<br>during use that the gloves are still retaining their protective properties. It should be<br>noted that the time to breakthrough for any glove material may be different for different<br>glove manufacturers. In the case of mixtures, consisting of several substances, the<br>protection time of the gloves cannot be accurately estimated. |
| Body protection               | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Other skin protection         | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Respiratory protection        | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.   |

### Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

#### **Appearance**

| Physical state  | : Liquid.                     |

| Viscosity                                  | : Kinematic (40°C (104°F)): <20.5 mm²/s (<20.5 cSt) |                  |  |  |
| Molecular weight                           | : Not applicable.                                   |                  |  |  |
| Heat of combustion                         | : 6.74  | 46 kJ/g          |  |  |

### Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.           |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : No specific data.  |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

### Section 11. Toxicological information

### Information on toxicological effects

### Acute toxicity

| Product/ingredient name     | Result                | Species | Dose                    | Exposure |
|-----------------------------|-----------------------|---------|-------------------------|----------|
| Tetrachloroethylene         | LD50 Oral             | Rat     | 2629 mg/kg              | -        |
| Fumed Amorphous Silica      | LD50 Oral             | Rat     | 3160 mg/kg              | -        |
| Light Aromatic Hydrocarbons | LD50 Oral             | Rat     | 8400 mg/kg              | -        |
| trimethylbenzene            | LD50 Oral             | Rat     | 8970 mg/kg              | -        |
| 1,3,5-Trimethylbenzene      | LC50 Inhalation Vapor | Rat     | 24000 mg/m <sup>3</sup> | 4 hours  |
| •                           | LD50 Oral             | Rat     | 5000 mg/kg              | -        |
| 1,2,4-Trimethylbenzene      | LC50 Inhalation Vapor | Rat     | 18000 mg/m <sup>3</sup> | 4 hours  |
| •                           | LD50 Oral             | Rat     | 5 g/kg                  | -        |
| Light Stabilizer            | LC50 Inhalation Vapor | Rat     | 500 mg/m <sup>3</sup>   | 4 hours  |

### Section 12. Ecological information

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects

: No known significant effects or critical hazards.

### Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 16. Other information

### Hazardous Material Information System (U.S.A.)

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

#### Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.
