Product Information (PI) Sheet

Product: Butyl Acetate

Code(s) : C14036

Description: Butyl Acetate is a blend of special evaporating solvents which are intended to correct most leveling and flow problems. Butyl Acetate contains no aromatic or ketone solvents.

Uses: Reducer for DesignRclassic and DesignRselect furniture product lines. Can also be used for thinning Euro Series products.

Physical Properties (packaged)
Weight per Gallon: 7.33 lbs. ± 0.2
Flash Point (PMCC): 24 ° F
Packaged VOC: 878 g/l (7.33 lbs/gallon)
Photochemically Reactive: No

Application Procedure
The use of reducer will alter the dry time in proportion to the amount added. Excessive use of reducer can increase sheen levels. Do not use in water borne coatings. Refer to individual Product Information (PI) sheets for correct viscosity times.

Packaging/Shipping
Available Units: Pails

Shelf Life and Storage
Store in a cool dry area in the original sealed containers.
Do not store around any source of flames or sparks.
Spills should be cleaned up with non-sparking tools and inert absorbent material.

DOT Classification
Flammable Liquid Red Label UN 1263

B/L Description
Paint UN 1263 3 PG II

Caution
THESE PRODUCTS ARE DESIGNED FOR SHOP APPLICATION AND PROFESSIONAL USE ONLY.
Use only after all safety information is understood.
Refer to the Material Safety Data Sheet (MSDS) for additional information.

Testing
Due to the wide variety of substrates, surface preparation methods, application methods, and environments, customers should test the complete system for adhesion and compatibility under their conditions prior to full-scale application.

## Notes

The information, rating, and options stated here pertain to the material currently offered and represent the results of tests believed to be reliable. However, due to variations in customer handling and methods of application that are not known or under our control, M.L. Campbell cannot make any warranties as to the end result. *Thank you for using M.L. Campbell Wood Finishing products.*
