## Section 2. Hazards identification

| Classification of the substance or mixture | : SKIN CORROSION/IRRITATION - Category 2<br>SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A<br>CARCINOGENICITY - Category 1A<br>SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 1 |
|--|--|
|  | Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: 6.3% (oral), 6.3% (dermal), 6.3% (inhalation)   |
| GHS label elements                         |  |
| Hazard pictograms                          |  |
| Signal word                                | : Danger   |
| Hazard statements                          | : Causes skin irritation.<br>Causes serious eye irritation.<br>May cause cancer.<br>Causes damage to organs through prolonged or repeated exposure.  |

### **Precautionary statements**

| Date of issue/Date | of revision                  | : 5/15/2024      | Date of previous issue | : 4/19/2024 | Version | :17       | 1/14 |
|--------------------|------------------------------|------------------|------------------------|-------------|---------|-----------|------|
| B30B4600           | ProMar® 400 Zero VO<br>Black | C Interior Latex | Flat                   |             | SHW-85- | NA-GHS-CA |      |

### Section 2. Hazards identification

| General                             | : Read label before use. Keep out of reach of children. If medical advice is needed, have  |  |
|-------------------------------------|--|--|
| General                             | product container or label at hand.  |  |
| Prevention                          | Obtain special instructions before use. Do not handle until all safety precautions have<br>been read and understood. Wear protective gloves, protective clothing and eye or face<br>protection. Do not breathe vapor. Do not eat, drink or smoke when using this product.<br>Wash thoroughly after handling.   |  |
| Response                            | : IF exposed or concerned: Get medical advice or attention. Take off contaminated clothing and wash it before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.  |  |
| Storage                             | : Store locked up.   |  |
| Disposal                            | <ul> <li>Dispose of contents and container in accordance with all local, regional, national and<br/>international regulations.</li> </ul>  |  |
| Supplemental label<br>elements      | WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Adequate ventilation required when sanding or abrading the dried film. If Adequate ventilation cannot be provided wear an approved particulate respirator (NIOSH approved). Follow respirator manufacturer's directions for respirator use. DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Abrading or sanding of the dry film may release Crystalline Silica which has been shown to cause lung damage and cancer under long term exposure. |  |
|                                     | This product contains a component that is either subject to a CEPA ministerial condition or an existing/proposed SNAC (Significant New Activity).  |  |
|                                     | Please refer to the SDS for additional information. Keep out of reach of children. Do not transfer contents to other containers for storage.   |  |
| Hazards not otherwise<br>classified | : None known.  |  |

### Section 3. Composition/information on ingredients

| Substance/mixture                | : Mixture        |
|----------------------------------|------------------|
| Other means of<br>identification | : Not available. |

### **CAS number/other identifiers**

| Ingredient name                       | % by weight | CAS number |
|---------------------------------------|-------------|------------|
| Calcium Carbonate                     | 11.58       | 1317-65-3  |
| Crystalline Silica, respirable powder | 6.28        | 14808-60-7 |
| Carbon Black                          | 1.94        | 1333-86-4  |
| Heavy Paraffinic Oil                  | 0.29        | 64742-54-7 |
| Heavy Paraffinic Oil                  | 0.19        | 64742-65-0 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

| Description of necessary first aid measures |   |  |  |  |
|---|---|--|--|--|
| Eye contact                                 | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.   |  |  |  |
| Inhalation                                  | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If<br>not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial<br>respiration or oxygen by trained personnel. It may be dangerous to the person providing<br>aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place<br>in recovery position and get medical attention immediately. Maintain an open airway.<br>Loosen tight clothing such as a collar, tie, belt or waistband.   |  |  |  |
| Skin contact                                | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.   |  |  |  |
| Ingestion                                   | : Wash out mouth with water. Remove dentures if any. If material has been swallowed<br>and the exposed person is conscious, give small quantities of water to drink. Stop if the<br>exposed person feels sick as vomiting may be dangerous. Do not induce vomiting<br>unless directed to do so by medical personnel. If vomiting occurs, the head should be<br>kept low so that vomit does not enter the lungs. Get medical attention. Never give<br>anything by mouth to an unconscious person. If unconscious, place in recovery position<br>and get medical attention immediately. Maintain an open airway. Loosen tight clothing<br>such as a collar, tie, belt or waistband. |  |  |  |

#### Most important symptoms/effects, acute and delayed Potential acute health effects Eye contact : Causes serious eye irritation. : No known significant effects or critical hazards. Inhalation Skin contact : Causes skin irritation. Ingestion : No known significant effects or critical hazards. **Over-exposure signs/symptoms** Eye contact : Adverse symptoms may include the following: pain or irritation watering redness Inhalation : No specific data. Skin contact : Adverse symptoms may include the following: irritation redness Ingestion : No specific data. Indication of immediate medical attention and special treatment needed, if necessary Notes to physician : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. **Specific treatments** No specific treatment. **Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training. If it is

### suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

### See toxicological information (Section 11)

| Date of issue/Date of revis | sion : 5/15/2024           | Date of previous issue | : 4/19/2024 | Version : 17     | 3/14 |
|-----------------------------|----------------------------|------------------------|-------------|------------------|------|
| B30B4600 ProMa<br>Black     | ® 400 Zero VOC Interior La | tex Flat               |             | SHW-85-NA-GHS-CA |      |

### Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising from the chemical     | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>metal oxide/oxides  |
| Special protective actions for fire-fighters   | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without suitable<br/>training.</li> </ul> |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

### Section 6. Accidental release measures

| Personal precautions, protec   | <u>tiv</u> | e equipment and emergency procedures   |
|--------------------------------|------------|--|
| For non-emergency<br>personnel | :          | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
| For emergency responders       | :          | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| Environmental precautions      | :          | This product contains a component that is either subject to a CEPA ministerial condition or an existing/proposed SNAC (Significant New Activity).  |
|                                |            | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).  |
| Methods and materials for co   | <u>nt</u>  | ainment and cleaning up  |
| Small spill                    |            | Stop leak if without risk Move containers from spill area. Dilute with water and mon up  |

**Small spill** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

: 4/19/2024

## Section 7. Handling and storage

| Precautions for safe handling                                      | 1 |   |
|--|---|---|
| Protective measures  | : | Put on appropriate personal protective equipment (see Section 8). Avoid exposure -<br>obtain special instructions before use. Do not handle until all safety precautions have<br>been read and understood. Do not get in eyes or on skin or clothing. Do not breathe<br>vapor or mist. Do not ingest. If during normal use the material presents a respiratory<br>hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the<br>original container or an approved alternative made from a compatible material, kept<br>tightly closed when not in use. Empty containers retain product residue and can be<br>hazardous. Do not reuse container. |
| Advice on general occupational hygiene                             | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.   |

## Section 8. Exposure controls/personal protection

### **Control parameters**

Occupational exposure limits (OSHA United States)

| Ingredient name   | CAS #             | Exposure limits  |  |
|---|-------------------|--|--|
| Calcium Carbonate   | 1317-65-3         | OSHA PEL (United States, 5/2018).<br>TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Respirable<br>fraction<br>TWA: 15 mg/m <sup>3</sup> 8 hours. ## Section 8. Exposure controls/personal protection

|--|

### Occupational exposure limits (Mexico)

| Ingredient name                       | CAS # | Exposure limits   |
|---------------------------------------|-------|---|
| Crystalline Silica, respirable powder |       | NOM-010-STPS-2014 (Mexico, 4/2016).<br>TWA: 0.025 mg/m <sup>3</sup> 8 hours. Form:<br>Respirable fraction |

### **Biological exposure indices (United States)**

No exposure indices known.

### **Biological exposure indices (Canada)**

No exposure indices known.

### **Biological exposure indices (Mexico)**

No exposure indices known.

| Appropriate engineering : controls | If user operations generate dust, fumes, gas, vapor or mist, use process enclosures,<br>local exhaust ventilation or other engineering controls to keep worker exposure to<br>airborne contaminants below any recommended or statutory limits.  |
|------------------------------------|---|
| Environmental exposure : controls  | This product contains a component that is either subject to a CEPA ministerial condition or an existing/proposed SNAC (Significant New Activity).   |
|                                    | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.   |
| Individual protection measures     |   |
| Hygiene measures :                 | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location. |
| Eye/face protection :              | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.  |
| Skin protection                    |   |

## Section 8. Exposure controls/personal protection

| Hand protection        | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
|------------------------|--|
| Body protection        | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Other skin protection  | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Respiratory protection | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.   |

## Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

#### **Appearance**

| Physical state  | : | Liquid.   |  |  |
|---|---|---|--|--|
| Color   | : | Black.  |  |  |
| Odor  | : | Not available.                                      |  |  |
| Odor threshold  | : | Not available.                                      |  |  |
| рН  | : | 9.5   |  |  |
| Melting point/freezing point                            | : | Not available.                                      |  |  |
| Boiling point, initial boiling point, and boiling range | 1 | 100°C (212°F)                                       |  |  |
| Flash point   | : | Closed cup: Not applicable.                         |  |  |

### Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.           |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : No specific data.  |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |
| I I                                |  |

### Section 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity

### Section 16. Other information

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

### Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.
