**Product Finishes**

**ULTRA-CURE® Clear Waterborne U.V. Topcoat**

**V86FHxxx Series Topcoats**

### DESCRIPTION

**ULTRA-CURE®** Clear Waterborne UV Topcoats are advanced UV cure technologies that are developed to meet the customer’s finish performance and application line requirements. These waterborne topcoats can be used as a self-sell coating system or over ULTRA-CURE® Clear Waterborne UV Sealer products. These high production systems are recommended for spray application on a flat line for interior wood products. Typical end use applications include Kitchen Cabinets, Residential and Commercial Furniture, Moldings. Please contact a local Sherwin-Williams Product Finishes representative near you for details.

**Advantages:**
- Low VOC
- No reportable VHAPS
- Self-sealing capable
- Passes KCMA test criteria for finishes
- Ideal for flat line application for a variety of interior wood markets and uses.

### CHARACTERISTICS

**Theoretical**

**Disclaimer:** The characteristics provided herein describe a typical product from this series. Formula customization may impact product characteristics. Contact your Sherwin-Williams Product Finishes sales representative for details.

- **Volume Solids:** 29-37%
- **Weight Solids:** 33-40%
- **Viscosity:** Line dependent
- **Recommended film thickness:**
  - Mils Wet: 3.0 – 4.5
  - Mils Dry: 1.0 – 1.6
- **Spreading Rate** (No Application Loss)
  - 465-595 sq ft/gal @ 1.0 mils DFT
- **Recommended Radiation Level:**
  - Band A: 512-600 mJ/cm²
  - Band B: 450 mJ/cm²
  - Band C: N/A
  - Band V: N/A

**Lamp Requirements:**
- Mercury vapor lamps

**Flash Point:** 499° F PMCC

**Package Life:** 3-6 months, Unopened

**Storage:** Refer to product specific SDS.

**Air Quality Data:**
- Non-Photochemically Reactive
- Volatile Organic Compounds (VOC) theoretical, maximum, less exempt solvents as packaged: < .50 lb/gal, 60 g/l
- Volatile Hazardous Air Pollutants (VHAPS) as packaged: No reportable VHAPS

An Environmental Data Sheet is available from your local Sherwin-Williams facility or at www.paintdocs.com.

### SPECIFICATIONS

**Wood (Interior Only):** Must be clean, dry, and finish sanded. Substrate should be free of grease, oil, dirt, fingerprints, and any contamination to ensure optimum adhesion and coating performance properties. Moisture content of wood should be 6 to 8%.

**Testing:** The information, data, and recommendations set forth in this Product Data Sheet are based upon test results believed to be reliable. However, due to the wide variety of substrates, substrate properties, surface preparation methods, equipment and tools, application methods, and environments, the customer should test the complete system for adhesion, compatibility and performance prior to full scale application.

**Wood (Interior Only):**
- Must be clean, dry, and finish sanded.
- Substrate should be free of grease, oil, dirt, fingerprints, and any contamination.
- Moisture content of wood should be 6 to 8%.

However, due to the wide variety of substrates, substrate properties, surface preparation methods, equipment and tools, application methods, and environments, the customer should test the complete system for adhesion, compatibility and performance prior to full scale application.
### APPLICATION

**Typical Setups**

- May be applied by:
  - Air Assisted Airless

**Reducer:**
- Deionized water

**Cleanup:**
- Clean tools/equipment immediately after use with water. Follow manufacturer’s safety recommendations when using any solvent.

**Reclaim:**
- Suitability of the use of reclaim is the responsibility of the customer. Due to various environmental conditions, reclaim should be evaluated before use. If utilizing reclaim, the reclaimed material must be reduced with RO or distilled water, to initial viscosity and mixed 50-50 with virgin material for best performance. Reclaim should never be recovered more than once to prevent coating premature polymerization. Use reclaimed material within a 24-48 hour period after appropriate dilution specified above.

### ADDITIONAL INFORMATION

- Not recommended for exterior use.
- Must use stainless steel equipment.
- **Storage:** Refer to product specific SDS.

### CAUTIONS

**FOR INDUSTRIAL SHOP APPLICATION ONLY**

Thoroughly review product label and Safety Data Sheet (SDS) for safety information and cautions prior to using this product.

To obtain the most current version of the Environmental Data Sheet (EDS), Product Data Sheet (PDS), or Safety Data Sheet (SDS) please visit your local Sherwin-Williams facility or www.paintdocs.com.

Please direct any questions or comments to your local Sherwin-Williams facility.
