**DESCRIPTION**

**ULTRA-CURE® Pigmented Waterborne UV Topcoats** are advanced UV cure technologies that are developed to meet the customer's finish performance and application line requirements. These waterborne topcoats are designed to be used as a self-seal coating system and are ideal for flat line application on interior wood products. These high performance coatings can be custom color matched to a desired gloss range at any of our dedicated, UV Cure locations. Typical end use applications include Kitchen Cabinets, Residential and Commercial Furniture, Moldings. Please contact a local Sherwin-Williams Product Finishes representative near you for details.

**Advantages:**
- Low VOC, less than 1.0 lb/gal
- No reportable VHAPS
- Self-sealing
- Improved non-yellowing performance
- Available in clean bright white and a wide range of custom color options.
- Passes KCMA test criteria for finishes
- Ideal for flat line application for a variety of interior wood markets and uses.
- Local service = faster turn on color matches.

**Lamp Requirements:**
Gallium and Mercury vapor lamps must be utilized in conjunction with each other to promote cure. Gallium lamp must be the first lamp utilized followed by the mercury vapor lamp.

**Flash Point:** 200° F PMCC

**Package Life:** 3 months, Unopened

**Storage:** Between 45°- 90° F

**Air Quality Data:**
- Non-Photochemically Reactive
- Volatile Organic Compounds (VOC) theoretical, maximum, less exempt solvents as packaged: < 1.0 lb/gal, 120 g/l
- Volatile Hazardous Air Pollutants (VHAPS) as packaged: No reportable VHAPS

An Environmental Data Sheet is available from your local Sherwin-Williams facility or at www.paintdocs.com.

---

**SPECIFICATIONS**

**Wood (Interior Only):** Must be clean, dry, and finish sanded. Substrate should be free of grease, oil, dirt, fingerprints, and any contamination to ensure optimum adhesion and coating performance properties. Moisture content of wood should be 6 to 8%.

**Testing:** The information, data, and recommendations set forth in this Product Data Sheet are based upon test results believed to be reliable. However, due to the wide variety of substrates, substrate properties, surface preparation methods, equipment and tools, application methods, and environments, the customer should test the complete system for adhesion, compatibility and performance prior to full scale application.

An Environmental Data Sheet is available from your local Sherwin-Williams facility or at www.paintdocs.com.
### APPLICATION
**Typical Setups**

May be applied by:
- Air Assisted Airless

**Cleanup:**
Clean tools/equipment immediately after use with water and alcohol. Follow manufacturer's safety recommendations when using any solvent.

**Reclaim:**
Suitability of the use of reclaim is the responsibility of the customer. Due to various environmental conditions, reclaim should be evaluated before use. If utilizing reclaim, the reclaimed material must be reduced with RO or distilled water, to initial viscosity and mixed 50-50 with virgin material for best performance. Reclaim should never be recovered more than once to prevent coating premature polymerization. Use reclaimed material within a 24-48 hour period after appropriate dilution specified above.

### ADDITIONAL INFORMATION
- Not recommended for exterior use.
- Must use stainless steel equipment.
- Constant agitation is required to maintain uniform color.
- Do not use as stand alone product.
- Multiple coats required for complete hide.

**Storage Conditions:**
- Keep out of direct sunlight, Store above 45°F – 90°F
- Maximum Total film: 3.0 mils

**Topcoat Color Development:**
- Maximum tint load cannot be given based on individual colors.
- Maximum tint load must be determined based on through cure and adhesion testing on specific color.
- See color matching guide supplied to facility for color matching procedures.

### CAUTIONS
**FOR INDUSTRIAL SHOP APPLICATION ONLY**

Thoroughly review product label and Safety Data Sheet (SDS) for safety information and cautions prior to using this product.

To obtain the most current version of the Environmental Data Sheet (EDS), Product Data Sheet (PDS), or Safety Data Sheet (SDS) please visit your local Sherwin-Williams facility or www.paintdocs.com.

Please direct any questions or comments to your local Sherwin-Williams facility.
